

Algebra 1 Rubric week 1:

**Variables:**

Extra      Proficient      Almost      Ways-to-go

Can recognize variables and differentiate them from constant values.

---

Can substitute a specific value into a variable

---

Can collect like terms, but knows when it's not possible.

---

Can determine how the change in slope changes the dependent variable in a linear equation.

---

Can solve for an unknown.

---

\*The fewer calculation errors and/or procedural errors we see, the more to the **left** I then place the check mark.
