

Algebra 1 Rubric week 2:

Graphing:

Extra Proficient Almost Ways-to-go

Can say and write definitions for slope, domain, & range as written in a textbook, without having to look.

Is able to make a chart with atleast 4 test points without a calculator.

Can write and say all 3 forms for the formula of a line.

Knows how to start at the origin and plot each test point so to make the graph.

Writes everything extra neat with scratch-work

*The fewer calculation errors and/or procedural errors we see, the more to the **left** I then place the check mark.
